

STORAGE THAT PROTECTS THE ENVIRONMENT. AND YOURS

[ENVIRO-BOX]

ABOUT US [EB]

Enviro-Box storage container systems deliver secure, convenient, and customizable liquid storage across industries and applications. Manufactured with durability and longevity in mind, Enviro-Box protects the environment from potential leakage while creating an optimal internal storage environment that safeguards your investment.

FEATURES AND BENEFITS [💡]

All our Enviro-Box storage container systems are coated with the Teslav NanoCoating System for the longest life possible. ✓

Visible main discharge line and clear view of port permit easy monitoring of liquid contents. ✓

Proprietary design increases load-bearing properties for greater strength and service life. ✓

Customizable to accommodate climate control requirements, utility hook-ups and more. The Enviro-Box may also be stacked using space-saving custom rack systems. ✓

Manufactured with materials that offer outstanding protection. ✓
